GROW

Why Partner with Axion?

Why settle for one-time payouts when you can build a foundation of ongoing revenue with Axion? As our Partner, you simply introduce the contact and we manage the entire process and ongoing support, giving your clients a reliable solution and you a growing stream of residual income. Here is what you get as our partner:

Lucrative Residual Income

monthly payouts on every active client you introduce

Evergreen Revenue

that grows alongside your client base

Hands-Off Sales Process

you share the contact and we handle the rest of the work

Spiffs & Bonuses

extra rewards for high performing partners

Trusted Reliability

Backed by Proven Performance

Fewer service disruptions build stronger client trust. With Axion, you offer your clients the reliable uptime they deserve:

- **24/7** monitoring across enterprise-class data centers.
- **Automatic** failover to mobiles, landlines, or branch offices.
- **Trusted** by hospitals, schools, and other organizations that cannot afford downtime.

Transparent Pricing

Compared to traditional systems, Axion reduces costs across the board so you can offer clients reliable communication without the burden of high fees:

Lower costs make it easier for your clients to choose Axion and easier for you to build lasting revenue.

Unmatched Support

for You and Your Clients

We do not just hand you a product. We support your clients directly so you are never stuck in the middle or chased for technical issues.

- **Direct Client Support**

Your customers contact Axion for help, not you, so they never have to hound you about issues.

- **Full Account Management**

We handle changes, troubleshooting, and day to day support for every account.

- **Lifetime Hardware Coverage**

IP desk phones are protected for the life of the service at no extra cost.

- **Training and Onboarding Included**

We provide remote training for new hires and ongoing user support at no additional cost.

Smooth onboarding and proactive support give your clients a great experience while you enjoy recurring revenue without extra work.

What We Deliver

We provide a suite of cloud-based communication tools designed to keep teams connected, productive, and efficient.

Axion Cloud PBX

Powering Seamless Business Communication

Axion Cloud PBX keeps your team connected from anywhere, makes call management effortless, and scales with your growth, backed by reliability and expert support you can count on.

Business SMS Solution

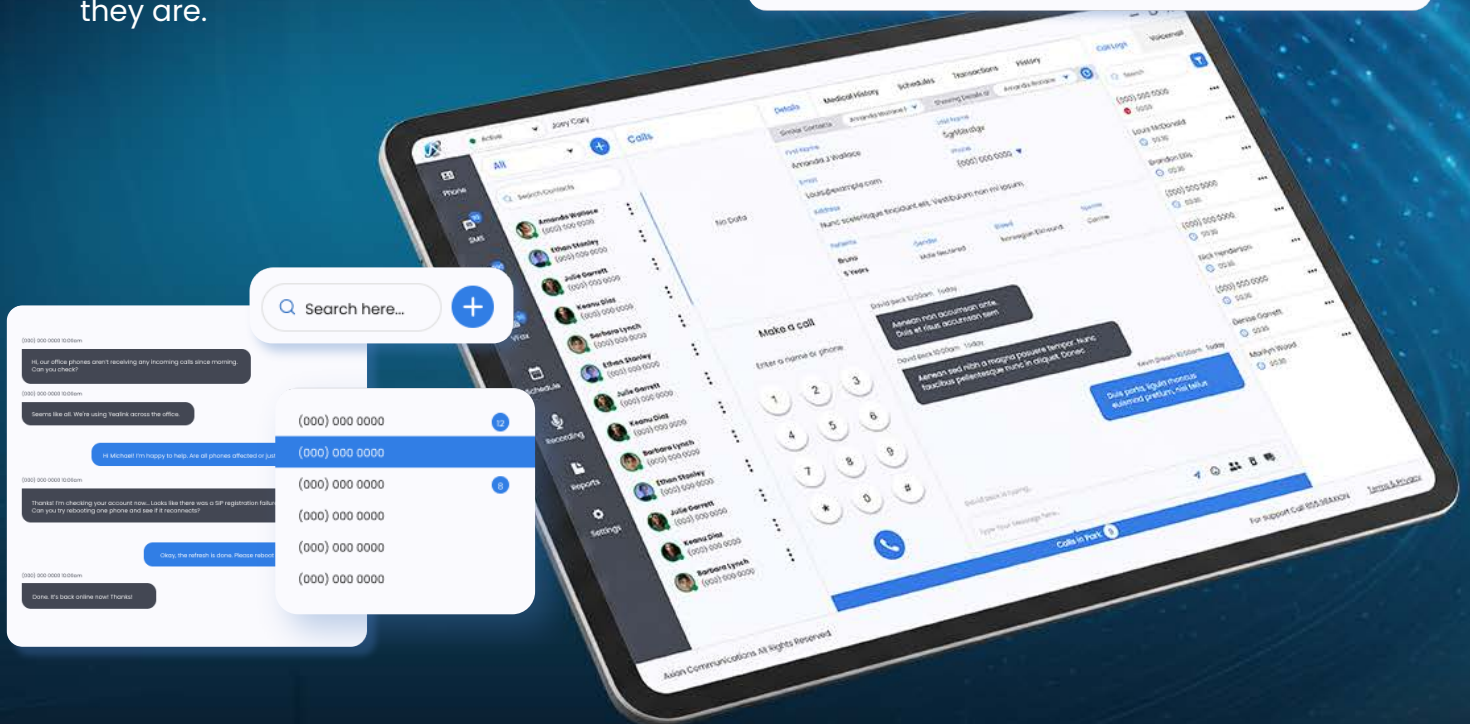

Text from Your Business Number

How you communicate speaks volumes about your brand. Axion's Business SMS solution allows you to maintain professional, secure, and consistent communication with your clients and team.

Team Chat

Instant Team Collaboration

Designed for businesses that depend on speed, clarity, and seamless collaboration. Axion Team Chat keeps every conversation organized, every message accessible, and every team member connected, no matter where they are.

AI Analysis

From Recordings to Insight

With Axion's AI Analysis, you can instantly access concise call summaries, actionable next steps, transcripts, and a clear read on customer sentiment.

VFAX

Ultimate Communication Upgrade

VFAX is a smarter, faster, more secure way to send and receive critical documents like contracts and invoices from anywhere, keeping communication professional and effortless.
